Creating a Home Study Area

Start with a well-lit, solid surface with plenty of elbow room. In my house it is the kitchen table, but a desk would work well too. Just make sure there is enough room to spread out and work. Another reason I like the kitchen table for us is NO TV. The kitchen is pretty distraction-free.

Add a homework box (a shoe box works great) filled with supplies:

- Pencils and erasers
- Crayons (just an 8 pack) and/or Colored Pencils
- Glue/glue stick
- Highlighter
- Scissors

And a checklist under the top:

Work in a quiet area with mom or dad.

Do my best.

Take my time.

Be Proud of my Work.
